Attendance Tracking Software System: 1 SGD Per Month

This document outlines the features, benefits, and pricing of our attendance tracking software system, offered at a competitive rate of 1 SGD per month. This system is designed to streamline attendance management, improve accuracy, and reduce administrative overhead for businesses of all sizes. We aim to provide an affordable and effective solution for tracking employee attendance, managing time-off requests, and generating insightful reports.

1. Introduction

Managing employee attendance can be a time-consuming and error-prone task, especially for organizations with a large workforce. Traditional methods, such as manual timesheets and punch cards, are often inefficient and susceptible to inaccuracies. Our attendance tracking software system offers a modern and automated solution to address these challenges. By leveraging technology, we can simplify attendance management, improve data accuracy, and provide valuable insights into workforce productivity.

2. Key Features

Our attendance tracking software system is packed with features designed to meet the diverse needs of businesses:

- **Real-Time Attendance Tracking:** Monitor employee attendance in real-time, providing an up-to-the-minute view of who is present, absent, or on leave.
- **Multiple Attendance Methods:** Support various attendance methods, including:
    - **Mobile App:** Employees can clock in/out using their smartphones via a dedicated mobile app.
    - **Web Interface:** A user-friendly web interface allows employees to clock in/out from their computers.
    - **Biometric Integration:** Integrate with biometric devices (fingerprint scanners, facial recognition) for secure and accurate attendance recording.
    - **RFID/NFC:** Support RFID/NFC card readers for quick and convenient attendance tracking.
- **Geofencing:** Restrict clock-ins/out to specific locations using geofencing technology, ensuring employees are physically present at the designated work area.
- **Automated Timesheet Generation:** Automatically generate accurate timesheets based on attendance data, eliminating manual calculations and reducing errors.
- **Leave Management:** Streamline the leave request process with an integrated leave management system. Employees can submit leave requests online, and managers can approve or reject them with ease.
- **Reporting and Analytics:** Generate comprehensive reports on attendance patterns, absenteeism rates, and overtime hours. Gain valuable insights into workforce productivity and identify areas for improvement.
- **Customizable Rules and Policies:** Configure the system to align with your organization's specific attendance policies and rules. Define work hours, break times, and overtime rules.
- **Integration with Payroll Systems:** Seamlessly integrate with popular payroll systems to automate payroll processing and reduce manual data entry.
